Lane Street Ground Water Superfund Site Community Update Elkhart, Indiana

EPA invites you to a public meeting on May 22, 6:30 p.m. - 8:30 p.m., at Osolo Elementary School, 24975 CR 6 E, Elkhart, to update you on the Lane Street Superfund site. Representatives from EPA, IDEM, and ATSDR will be available at the meeting to talk with community members.

In April and May 2011, EPA contractors sampled ground water at 25 locations, both residential and industrial. These samples showed elevated levels of trichloroethylene, or TCE, and other contaminants. Based on the results of those samples, EPA is doing a second round of investigation that will begin in late spring. It includes both the industrial park to the north and residential area.

To learn more about the Lane Street site, visit www.epa.gov/region5/sites/lanestreet/. You may contact Project Manager Leslie Blake at 312-353-7921, or blake.leslie@epa.gov, or Community Involvement Coordinator Janet Pope at 312-353-0628, or pope.janet@epa.gov.
